

An abstract graphic featuring a large, bold, orange chevron shape pointing downwards. This shape is set against a background of grey and white geometric planes, creating a three-dimensional effect. The orange shape appears to be a thick, translucent layer or a cutout of a larger grey shape.

INFINITE LENGTH

Interconnecting components enable infinite configurations.

Menu boards are ideal for quick-service restaurants and environments where displays have to be prominently positioned for critical information delivery. Lightweight yet durable aluminum rails can be connected together or cut to length to suit specific project requirements.

WALL-MOUNTED

LANDSCAPE OR PORTRAIT ORIENTATION

VERSATILE

Wall or ceiling-mounted options for any display size and orientation.

CEILING-MOUNTED

CUSTOM SOLUTIONS

We specialize in modular solutions. Menu board mounts can be tailored to specific project needs to provide information delivery across retail environments, whether small or large. Talk to us about your next project.

PURPOSE DESIGNED For specific project requirements

Infinite length

Achieve the desired length by combining any of four available aluminum extrusion lengths - 18.9", 26.7", 49.2" and 68.9" - or cutting them to your specific requirements.

Choice of VESA brackets

Five VESA bracket options will accommodate any display size up to 110lb in portrait or landscape orientation. Tilting or fixed angle brackets are available to achieve the optimal viewing angle.

ADB-B900F

Fixed angle
900 VESA bracket.
for large displays
and portrait installations.

ADB-B400F

Fixed angle
400 VESA bracket.
for medium displays.

ADB-B200T

Tilting angle
200 VESA bracket.
for small displays.

ADB-B400T

Tilting angle
400 VESA bracket
for medium displays.

ADB-B400M

Fixed angle
400 VESA bracket
with micro adjustments
for medium displays.
