Point of sale – fixed

Point of sale – fixed

Amplify your checkout efficiency with robust touchpoints

Point of sale solutions have come a long way since the initial invention of the cash register around 1879. Sophisticated Point of Sale solutions are cloud connected, able to deal with a variety of payment methods, integrate customer loyalty programs, and incorporate both eftpos and touch screens. Look for POS mounting solutions that comply with PCI DSS security directives, support leading retail tech hardware, improve checkout ergonomics and transaction speeds, and are easy to install and cost effective to upgrade.

Fixed EFTPOS mounting solution

Integrated point-of-sale solutions

Atdec Uncover™ tip

Investigate tailored POS solutions

- > Unusual space restrictions
- > Additional security challenges
- > Special workforce considerations
- > Proprietary furniture/devices

Point of sale – tablet

TABLET

Integrate your cloud payment solutions with tablet-enabled transactions

Growing trends in cloud payment solutions mean that retailers and restaurants no longer need to design their POS services around fixed cash registers. The NRA restaurant industry 2016 forecast (www.restaurant.org) predicts that 39% of consumers would pay with an app if it were available. Digital native populations including Millennials and Gen-Z are especially driving tablet-integrated wireless transactions.

*Mounting support for all major tablet brands,
integration with other POS tech, and range of
design and security features.*

Point of service – assisted

Maximize customer life-cycle with human + tech engagement

Remarkable and personalized customer service encounters will never go out of style. Tony Zambito (founder and creator of the concept of 'buyer personas') proposed, "Instead of using technology to automate processes, think about using technology to enhance human interaction." With a powerful human+tech combo, you can encourage customer loyalty.

A QuickShift™ donut makes height adjustment a snap

Retain a space-saving footprint whether you go small, medium or tall on your fixed-post height

Atdec Uncover™ tip

Evaluate your consultant-client needs

- > Space requirements
- > Height requirements
- > User comfort requirements
- > Optional display rotation
- > Number of displays

Public-facing tablet mounts are highly accessible, durable and secure

Expand your customer service delivery with strategic public-facing devices

According to a white paper by consumer transaction tech company NCR (NCR.com), new instances of self-service have sprung up across financial institutions, retail stores, airports and travel agencies, medical centers, gas stations, tourist information hubs, hotels and restaurants, government entities and entertainment venues.

“Self-service has ... helped create a new era of efficiency, convenience, and productivity.” - NCR white paper
